

PHLOGISTON PRODUCTS, INC

Rising to the Challenge

Phlogiston Products, Inc. will take delivery from Van's Aircraft of your RV-4 or RV-6 wing spar and bulkhead materials. After fabrication of your assemblies, they will be returned to Van's for delivery with your entire wing kit per your arrangements with Van's. There are no additional handling, crating or shipping charges. The Fuselage Bulkhead assembly is completed to the extent necessary to install it in our fixtures to complete the spar splice drilling. There is some additional work to be done on the bulkhead by the builder prior to installation in the fuselage assembly. The various parts are "keyed" together for you by drilled and dimpled holes.

If we can be of service, please fill out the order form and forward with your check made out to Phlogiston Products, Inc. You may send the full amount of \$1,414.00 or a non-refundable deposit of \$75.00, with the balance due when you receive delivery notice from Van's. Your earliest order placement will help us match your kit delivery date and prevent unnecessary delays. No orders can be accepted without the Order Form below.

DO NOT SEND TO VAN'S AIRCRAFT
Prices subject to change without notice

ORDER FORM

Phlogiston Products, Inc. is a machine and assembly shop working to very high standards with precision equipment; however, we make no claim to be qualified as metallurgical or aircraft structural engineers. While Phlogiston Products, Inc. has chosen to provide this pre-assembly service, in conjunction with, in our opinion, a quality design and kit, and while we stand fully behind the work that we do, we cannot take responsibility for the integrity of the materials, or the design of the aircraft. We will make preliminary inspections of the materials you provide for us to use. In the event we find material marred or damaged that, in our opinion, may affect the structural integrity of the assembly, your order is assumed to be your authorization for us to remove material in resurfacing the metal, or to exchange the piece for one of better condition.

* Having read and agreed to the above, I request Phlogiston Products, Inc. to pre-assemble my RV-4/RV-6/RV6A wing spars and enclose the amount of \$ 1414 and I agree to remit any balance due for the spar work to Phlogiston Products, Inc. when I receive notice of wing kit delivery form Van's Aircraft.
